Vegan friendly

Sterile filtered at bottling

Vineyard

The Silvernail Vineyard is 3 ½ acres of Vignoles located on the eastside of Keuka Lake just off of Silvernail Road. This site is separated into two different blocks, and the 2015 Amber Vignoles comes from Block 2, the newest section of vines, planted between 2012 and 2015. Resting on moderately drained soils made of clayed sediments intermixed with dense glacial till, where the upper two feet of soil are very permeable.
