Final TA: 9.5 g/L

Harvest Data

Harvested: October 6, 2015

Brix: 22.2

pH: 3.00

TA: 10.1 g/L

Vinification

Hand harvested

Settled outside for 24 hours in ambient temperatures

Racked, inoculated with X5

42-day fermentation at 55°F

Aged on fermentation lees for 8 months

No fining agents used

Vegan friendly

Sterile filtered at bottling

Vineyard

The Falling Man Vineyard is just over one acre of Riesling planted on the western slopes of Keuka Lake just below the winery and Goldman Vineyard. This vineyard gets its name from its extreme slopes and tortuous climb back up the hill. Resting on excessively well-drained soils made up of outwash glacial material, the vineyard has varying and irregular topography, which can be seen very clearly when driving a tractor on the 30% slope.
