Keuka Lake Vineyards
2022 Seyval Blanc Methode Ancestral

Tasting Notes

Honeydew melon, wet river rocks, lime zest are both on the nose and palate, while there is a slight brioche note on the finish. This is a lovely brunch wine, or pair with oysters on the half shell and other shellfish.

Estate Vineyard
Eastside
Training: 3 wire
Hand harvested: September 11

Analysis:
Alcohol: 10.3%
pH: 3.16
TA: 10.3 g/L
RS: <1%

99 Cases Produced
Bottled: October 25, 2022

Winemaking

The grapes were partially whole cluster pressed to tank for the juice to cold settle then racked off heavy solids and inoculated with DV10. The fermentation was kept in the low 50's. The wine was bottled when there was 17g/L residual sugar to finish fermenting in the bottle. The wine was lightly filtered at bottling. Vegan friendly. No sulfites add.
